Likhila Vydana
FULL STACK WEB DEVELOPER

Delhi, India | likhilavyd.work@gmail.com

Objective

Aspiring full-stack web developer with a strong foundation in front-end technologies and a passion for crafting visually engaging, user-centric digital experiences. Currently pursuing B.Tech in Electronics & Communication Engineering with a specialization in Artificial Intelligence at IGDTUW, I aim to leverage my skills in React, JavaScript, and UI/UX design to contribute to innovative tech solutions. Seeking opportunities to collaborate on impactful projects, enhance my development expertise, and grow within dynamic, design-forward teams.

Summary

Energetic and detail-oriented web developer with hands-on experience in HTML, CSS, JavaScript, React, and Python. Adept at building responsive interfaces and solving real-world coding challenges. Proven track record of contributing to hackathons, open-source initiatives, and campus tech communities like IEEE and TechnoLiterati. Certified in web development, responsive design, and Gen AI, with a strong commitment to continuous learning and creative problem-solving. Passionate about merging aesthetics with functionality to deliver seamless digital experiences.
